

Wetaskiwin U.F.A. Prov. Constituency Convention

The annual convention of the Wetaskiwin U.F.A. Provincial Constituency Association will be held in the U.F.A. Hall, Wetaskiwin, commencing at 10:30 a.m. on Tuesday, November 14th. In addition to the routine business of the association, a thorough discussion of the telephone situation will be held, and it is expected that an official of the Telephone Department will be present to give information to their plan for handling the rural telephone lines. Norman F. Priestly, vice-president of the U.F.A., will be the chief speaker of the afternoon and will deal mainly with the work of the Co-operative Committee.

In the evening a public meeting will be held, which will be addressed by C. H. Bonding, M.L.A. In the morning a young man whose reputation as a speaker is rapidly growing. All sessions of the convention are open to the public and visitors of any occupation and opinion are welcome.

HEAVY DAMAGES AWARDED U. OF ALTA. STUDENT

Edmonton, Oct. 30.—Whether the University of Alberta will appeal from the judgment of Mr. Justice W. C. Ives, handed down on Saturday, whereby it was assessed \$56,360 in the action brought by C. H. A. Powell, Calgary barister and 21-year-old—Armand as a result of injuries suffered by the younger Powell at initiation ceremonies in 1932, is still under consideration, according to Dr. R. C. Wallace, president of the U. of A.

In this case, seeking damages for negligence, by means of tacit approval of initiation ceremonies a precedent was set in Alberta legal jurisprudence, as there is no similar case on the records.

In his judgment, handed down just before the courts closed at 1 p.m. on Saturday, Mr. Justice Ives awards the younger Powell \$50,000. "To the paternal parent," awarded \$4,000 for the further treatment of the son for one year and \$2860 to cover disbursements already made. Costs are also awarded to plaintiff.

Armand Powell entered the U. of A. as a freshman at the 1932 academic year. He later became mentally deranged and his father brought action against the U. of A. for \$200,000 claiming that the mental condition had been brought about by the initiation proceedings.

ST. ANDREW'S Y.P. SOCIETY HELD SOCIAL EVENING

The weekly meeting of the St. Andrew's Presbyterian Young People's Society, recently formed, was held in the church parlors Monday evening last, with Lee Wing, president, in the chair.

There was a full attendance and some new members were received. After the business part of the meeting which dealt with the aims and objects of the club and the laying of plans for the future meetings, refreshments were served and a social and friendly time was enjoyed by those present.

The club plans to hold regular weekly meetings each Monday evening commencing eight o'clock, when programs instructive and entertaining in nature will be provided.

WHEAT PRICES FIXED IN GERMANY, SPECULATION BANNED

Germany has fixed prices for bread grains and dealing in futures on the great exchanges of Berlin and Breslau have been suppressed. German farmers are being organized into co-operatives intended to "free the agriculturist from dependence on the market to place the agricultural industry outside the capitalistic system."

It is reported that one of the fastidious newly married ladies of this town made with her gloves on. This incident may be somewhat peculiar but there are others. The editor of this paper kneads bread with his shoes on, and needs bread with his pants on, and unless some of the delinquent subscribers to this "Old Rag of Wisdom" pony up before long he will need bread without a blamed thing on, and the Ohio River valley is no garden of Eden in its winter time.—From Cincinnati, Ohio.

Weddings

DAHLE-NELSON

The Baptist parsonage was the scene of a very pretty wedding on Thursday, October 26th, at 10 a.m. when Rev. P. M. Meyer united in holy bonds of matrimony, Miss Pearl Francis Nelson, daughter of Mrs. P. Nelson and the late Mr. Nelson of the Wetaskiwin district, and Oscar Dahle of Wetaskiwin.

The bride was beautiful in a frock of gray silk crepe. Miss Gladys Nelson, sister of the bride, was bridesmaid, and the groom was ably attended by Harris Karstad. The best wishes of the community are extended to this young couple.

SCHMIDT-SHAW

In St. Andrew's Presbyterian church, Wetaskiwin, on Saturday last, Edward William Schmidt and Miss Helen Marie Shaw of Picher Creek, were united in the holy bonds of matrimony. The young couple were attended by Dan Lemke and Mrs. Marie Lemke of the Brightview district. Rev. Thomas Murphy, B.A., minister of the church, was the officiating clergyman.

JENSEN-NELSON

NELSON-HEIDIN

A happy event took place on Wednesday, October 25th, at 2 p.m., at the Baptist parsonage, when a pretty double wedding was solemnized by Rev. P. M. Meyer. Sarah Viola Nelson, daughter of Mr. and Mrs. A. Nelson, became the bride of Edward Jensen, son of Mr. and Mrs. Nels Jensen, and Miss Rosa Marie Alice Heidin, daughter of Mr. and Mrs. A. Nelson. The contracting parties are all of the Millot district.

The two brides looked lovely in Savona blue silk crepe frocks, and the bridesmaids wore light blue frocks. Both couples are making their homes in the vicinity of Millot.

ENJOYABLE SHOWER HELD FOR POPULAR BRIDE-TO-BE

Misses Minnie and Marian Lundell were joint hostesses at a miscellaneous shower in honor of Miss Gladys Asplund, a bride-to-be of the near future, at their home on Monday evening, October 23rd.

The rooms were tastefully decorated in Halloween colors. Contests and games provided great merriment, prizes being won by Irene Fee and Dorothy Leeman. A delicious supper was served, during which the gifts were presented to the guest of honor, who graciously expressed her appreciation of the happy surprise.

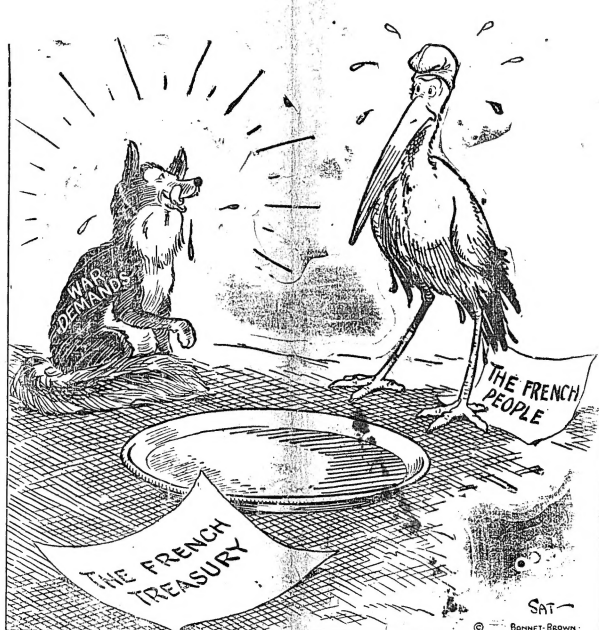

Among those present were Miss Gladys Asplund, Mrs. P. Ryan, Mrs. R. A. Lawcan, Miss Ruby Iye, Dorothy Leeman, Helen Switzer, Norma Child, Ellen Vassberg, Irene Fee, Myrtle Owen, Myrtle Johnson, Ethel Johnson, Florence Recknagle, Asta Vold, Annie Mahans, Connie Schaff, Minnie Lundell, Marian Lundell, Mrs. E. Lundell.

Mrs. H. Asplund was hostess at a shower, at her home last Tuesday afternoon, in honor of Miss Gladys Asplund, whose marriage takes place this month. In behalf of the friends Mrs. Robert Lawson presented the guest of honor with a silver cream and sugar service.

APPEAL FOR FUNDS AND CLOTHING

The Community Welfare League is again making an appeal for funds and clothing to carry on with the work of relief in Wetaskiwin and district. Headquarters are at the Driard Hotel and donations may be left there.

The Welfare League sincerely hope the public will respond as generously as they have in the past as this need this year is greater than ever. The circus was touring Scotland. The baboon died and was cast into a ditch. Two Highlanders passed and saw the corpse. "Whol't that be now?" asked Tom. "I'm a den," replied the other. "It's no black enough for Macdonald, I'm thinking it must be one of those English tourists."

It's the Old Story

SOLDIER SETTLERS UNION CONVENES

Lloydminster, Oct. 28.—General organization of the Soldier Settlers' Union of Canada, which was initiated here one year ago, was further perfected at a two-day conference, from Monday to Tuesday, Oct. 27-28. Officials, who were present, were: C. R. McIntosh, M.P., North Battleford, addressed one session, and claimed that through organization it would be possible for them to achieve abolition of interest for soldier settlers. He commended the union for what it had already accomplished, saying he felt they had played a large part in securing passage at the last session of the bill to assist soldier settlers.

Lieut.-Col. H. J. Pelee, Lloydminster, was elected president, and Major H. S. Packman here, secretary. Other officers elected were: vice-president, R. J. Stewart, Lloydminster; executive, Col. Burnett Laws, Lloydminster; H. S. Clarke, North Battleford; J. E. Orr, Millet, Alta.; V. Dolton, Parmess, Sask.; E. T. Sturge, and H. Mitchell, Lloydminster; H. M. Browning, Lashburn; C. S. Hutton, Marshall, Sask. P. Esseneuer, M.L.A., Alexandria, was also an outside speaker. A dance and social evening concluded the conference in which numerous soldier settlers of the district joined.

MEMORIAL SERVICE

The annual Memorial Service will be held in the Audien Theatre, Wetaskiwin, on Saturday, Nov. 11th, at 10:30 under the joint auspices of the Peace Hill Chapter of the I.O.D.E., and the Wetaskiwin Post No. 58, Canadian Legion B.E.S.L. Parades will fall in at the Alexandra School at 10:15 sharp under the direction of Mr. T. Gould.

All Associations are invited to take part and those wishing to parade should notify Mr. Gould immediately. The address will be given by Rev. A. M. Trendell, Chaplain to the Legion. A special invitation to parade with medals is tendered to mothers, wives and relations of fallen comrades. On conclusion of the service, parades will proceed to the Memorial Park for the purpose of placing their floral tributes on the Cross of Sacrifice.

Trade with the merchants who advertise in this paper.

REMEMBRANCE DAY

Saturday, November 11th, has been proclaimed a legal holiday throughout Canada, as a memorial to the thousands of brave Canadians who sacrificed their lives in the Great War. All residents of Canada are requested to observe this day as a holiday.

WINTER CAME OCT. 14 41 YEARS AGO; SNOW STAYED UNTIL MAY 8TH

At this time of year, old-timers hark back to cold weather conditions of other seasons and since winter has descended so suddenly and early the question arises as to whether any records have been set up this year. One old-timer, Mr. F. L. Farley, finds on referring to his diary that winter with snow arrived 41 years ago on October 14, and the snow did not entirely disappear again until May 8 of 1932. The seasons, 1906-07 are recorded as having been long hard winters, and a great many will remember the exceedingly severe weather and deep snow of 1919 and 1920, when prices of feed for livestock went practically out of sight and thousands of cattle and horses died from starvation and exposure. Seasons such as those mentioned are fortunately so rare as to call forth special comment.—Canadian.

CURLING MEETING

A meeting of those interested in curling will be held at the rink on Monday evening, November 6th, at eight o'clock, to consider the question of holding a bonspiel here this season, and also for the reorganization of the club. This will be an important meeting, and it is urged that as many as possible attend.

BORN

CHRISTENSEN—In the Community hospital on the 1st inst., to Mr. and Mrs. L. F. Christensen of Wetaskiwin, a daughter.

LOOV—In the Community hospital on the 29th ult. to Mr. and Mrs. Wm. Loov, twin sons.

SCHREIFELS—In the Community hospital, on the 29th ult. to Mr. and Mrs. M. J. Schreifels of Wynne, a son.

Wetaskiwin store-keepers and business men are reminded that all classes of printed matter, including counter check books, may be obtained at lowest current prices at The Times office. Local workmen spend the money they earn with those who purchase their printed matter here, and it is mutually good business to encourage home industry.

Local Member Addresses Club on Canadian Banks

Obituary

MRS. J. E. ANDERSON

Mrs. Joh. E. Anderson, a pioneer of the Wetaskiwin district, passed away on October 28th at Ferndale, Wash., at the age of 74 years. She was predeceased by her husband in May of this year.

Mr. and Mrs. Anderson homesteaded in the New Sweden district east of Wetaskiwin, in 1894 and there took an active part in church and community life for many years. Since 1920 they made their home at Ferndale, Washington. Mrs. Anderson leaves to mourn her loss to daughters, Mrs. Erickson of Ferndale, Wash., and Mrs. Linquist of Seattle, Wash., together with their families; a sister, Mrs. Ida Peterson of Sandpoint, Idaho; a sister and brother in Sweden, and a host of friends in the Ferndale and Wetaskiwin districts.

PEACE HILL CHAPTER I.O.D.E. TO PRESENT SCHOLARSHIPS

Peace Hill chapter I.O.D.E. will hold their regular meeting at the home of Mrs. H. W. Wright, on Tuesday evening, Nov. 7th, at 8 p.m. The scholarships will be presented on the afternoon of Tuesday, Nov. 7th, at 3 o'clock, in the Elks' Hall, when it is expected that Mrs. R. C. Marshall, Provincial President of the Order, will be the speaker.

For the afternoon meeting the members are requested to assemble in the back of the hall, then to parade to the front seats, led by the Standard Bearer. When the flag is deposited, "O Canada" will be sung, after which the program will be presented. A full attendance of I.O.D.E. members is requested at both meetings.

EDMONTON GRADS CLEANUP ON CHICAGO RED DEVILS

Edmonton, Oct. 30.—By a score of 54 to 38, Coach J. Percy Page's team over the Chicago Red Devils Monday night in a game in which the check and in which the issue hung in the balance until well into the final quarter. Baiting their hardest to prolong the series, the Chicago team were in front at the end of the first quarter, 13-0, but had slipped behind 24-21 at half-time. After another fiery 10 minutes all the Grads could boast of was a 37-31 lead, but in the fourth and final frame they stepped out and outscored their rivals 17 to 7.

"Usually, early in the new year, the motorist is unable to secure his license, and waits until spring returns before bringing out his car. During the interval, the car has been idle, representing a loss to all oil and gasoline dealers, auto garages and service stations, and to the community as a whole," the statement says. "If, however, he need not secure his license until the first day of April, he may run his car throughout the winter. This means that the months of January, February and March would see as many cars in use as do June, July and other summer months."

FORMER CITY MINISTER ORDAINED IN ANTIPODES

Word has been received in Edmonton of the ordination at St. Andrew's church, Wairoa, New Zealand, of Rev. C. J. Mackay, a former minister of Rupert St. Presbyterian church, Edmonton, and a missionary student who served churches at Wainwright and Wetaskiwin. Mr. Mackay was well known in Edmonton and has many friends here.

His church people in New Zealand have presented him a fine manse and an automobile.—Edmonton Journal.

MRS. ARTHUR MURPHY LAID TO REST AT EDMONTON

Edmonton, Oct. 30.—Attended by residents drawn from all walks of life—men, women and children who had known her in the course of her manifold activities—funeral services of Mrs. Arthur Murphy, who under the pseudonym of "Jaune Canuck" became one of Canada's authors, were held on Monday afternoon. Mrs. Murphy died suddenly on Thursday night from a stroke.

In an address in Winnipeg on Thursday, Hon. H. H. Stevens, minister of trade and commerce, said that unless meat packers and other dealers in farm products take action to raise prices to the farmers, the government may have to step in and do so for them.

Canadian bacon had climbed to fourth place in the British market, said a bureau of statistics bulletin.

Kiwanian Art Frieson was the principal speaker at the luncheon on Tuesday evening, and he gave the club members a lot of information about the banking system in Canada. All banking activities are controlled by the Bank Act which is a federal law and not provincial. The receipts in the banks show a fluctuation according to the season of the year. There are ten chartered banks in Canada today controlling assets amounting to over two billion dollars, and there are 3558 branches. The banks are very stable, as there have been no failures during the past ten years. The bank officials are always on the lookout for new locations which enables them to provide service to as many clients as possible. It is often some time before these branches yield a profit. There is a branch bank for every 2500 people in Canada. Mr. Frieson explained the manner in which applications for loans are dealt with and described the clearing house system, as well as the investment policies. He also referred to several clauses in the bank act and explained how they controlled the officials, the shareholders and the depositors.

It was announced that the Rotary Club of Camrose has accepted the invitation to be guests of the club on Tuesday evening next.

A resolution voting \$50.00 to the work of the Welfare League was unanimously passed.

PROJECTING PIPE RIPS AUTO BUS WIDE OPEN

High River, Alta., Oct. 30.—Four persons were killed and seven injured Sunday when a large passenger bus crashed into the rear of a motor truck about one mile north of here. The dead: Jack Porter, manager of the Alexandria bridge.

Mrs. Margaret Robertson, of Crossfield, Alberta, Mrs. J. Larkin, of Nanton, Mrs. J. Oliver, Miss L. Wilkinson, W. Leon Kinschiff, of Calgary, were among the seven injured. Miss Wilkinson also passed away on Monday morning, bringing the total number of deaths to four.

The bus driver had slowed down behind a parked truck to permit another car to pass. On attempting to pass the parked truck, the bus crashed into a large pipe, jutting out from behind the truck. The pipe ripped the right side of the bus, breaking all windows and wrecking the huge vehicle.

Those killed were on the right side of the bus, receiving the full force of the iron pipe. The truck driver, who was out of his cab fixing his lights, was uninjured, but his machine was wrecked.

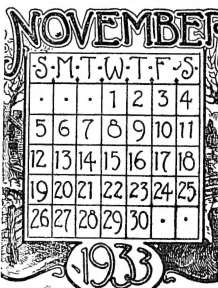

MOOSE LODGE HELD ENJOYABLE SMOKER

On Thursday night last the members of Wetaskiwin L.O.O.M. No. 1559 held a smoker and social evening and all those who attended spent a very pleasant time. Curt Smith, delegate to the Welfare League, reported the necessity of a generous donation this year, as the supplies of old clothing and wearing apparel are exhausted, and money is required. It was agreed that all members do everything possible to assist the work. A program consisting of music, recitations and address was enjoyed. In spite of the bad weather, a large number of club members were present.

RUGBY CHAMPIONSHIP GAME HERE SATURDAY

On Saturday afternoon next, at 2:30, at the Athletic park, the championship game for Northern Alberta will be played, the opponents being a team representing the Garneau High School. The citizens are urged to come out in large numbers and encourage the local boys.

Out of a total of 101,765 persons employed or settled on farms throughout Canada under the auspices of the dominion department of immigration and the railway companies, Alberta was the second largest, with 8,065, according to an Ottawa report.—To date 348 families have been settled on farms of their own in this province plan.

The Romance of Wheat

(By W. D. ALBRIGHT, in "Canadian Comment")

A rather tall, spare, fair man of clerical mien sat in a high-ceilinged office chowing gum. He might have been a professor, a choir leader or even a minister. He did not resemble a tiller of the soil, yet he put a means of living into the hands of many thousands of farmers, contributed immensely to Canada's material wealth and rolled back the cereal map many miles towards the west and north. The gum he chewed was the gluten of spring-wheat kernels. One let attracted particular attention by the size and toughness of the pellet of gum derived. That was how Dr. Charles E. Saunders discovered the mulling quality of what was afterwards known as Marquis wheat.

Years before, his father, the late Dr. William Saunders, a Devonshire-born pharmacist and horticulturist, who was called in 1886 from London, Ontario, to become the first director of the Dominion system of Experimental Farms, had instituted a world-scouring and cereal-breeding program in the hope of finding or producing a high-quality wheat early enough to escape autumn frosts on the Western prairies. From the steppes of Russia, the mountains of India, wherever the quest seemed worth while, he had gathered likely material. This was tried out but always found wanting in one respect or another. Ladoga was obtained north of Leningrad, Russia (Latitude 60 degrees North, the parallel projecting along the northern boundary of our four Western provinces). Ladoga was early and a good yielder in Northern climates but its flour was inclined to be yellow and the milling quality deficient. Hard Red Calcutta was very early and a fair milling wheat but fell short in yield.

Red Fife—Father of Them All. Back about 1842, long before the Saunders' began manipulating wheat, an Ontario farmer, David Fife, had planted a sample of wheat received from a friend in Glasgow, who had obtained it from a cargo at the Port of Danzig, Germany (now Poland). It proved to be winter wheat, but mixed with it was a kernel of spring wheat which grew and matured. Mr. Fife carefully saved the heads and increased them. They became known in Canada as the Red Fife, which made Manitoba famous, but which sprang up late to ripen early when the wheat belt was pushed further west and north.

An old Scottish fur trader informed me that when he came through Winnipeg in 1882, friends there told him it was no use trying to raise wheat west of Portage la Prairie, for beyond that point the ground never thawed out. A slight misimpression regarding the ground frost, but loosely suggestive of the problem confronting the cereal breeder of the period. "Send us an earlier wheat," was the stentorian plea of the late Angus Mackay, Superintendent of the Indian Head Experimental Farm.

The Crossing Continues. Dr. Wm. Saunders crossed Ladoga with both Red Fife and White Fife, producing by the first cross Preston

and Stanley; by the latter, Huron and Percy—all good yielders and earlier than Red Fife but revealing Ladoga "blood" in their creamy flour and somewhat deficient bread-making quality. Preston proved a stop-gap for some regions but a better kind was needed. The crossing continued. In 1892 Dr. Saunders, Senior, decided to have crosses of Red Fife and Hard Red Calcutta made at different points throughout Canada. His son Percy was sent to make them at Brandon, Man., Indian Head, Saskatchewan, and Assiniboia, British Columbia. This was done by removing the pollen grains from the flowers of selected heads and presently introducing pollen from other plants to fertilize the pistils of the flowers. The issue of any particular cross lay in the lap of the Gods.

I recall a noted public controversy between two intellectual giants, Dr. Jas. W. Robertson and Dr. Wm. Saunders. Robertson held that selection of choice heads from among existing varieties offered the quicker and greater promise of plant improvement. Saunders contended that the introduction of new genetic factors by hybridization, followed by subsequent selection to fix the type, was necessary to effect radical improvement. Dr. Robertson's argument appealed to many laymen as the more plausible but Time proved that Dr. Saunders had the sound scientific view. Meanwhile he held his course. Perseverance is an important component of genius.

Marquis Discovered by the Cheiving Test

In 1903 Dr. Charles E. Saunders was appointed to the position of Dominion Cerealist, inheriting a new Marquis wheat. He proposed to speak, the product of the crosses that his father, his brother and others had made. Today the Cerealist Division of the Central Experimental Farm is equipped with a laboratory in which small lots of wheat may be analyzed for pro-

tein, ground into flour and baked into bread, all under uniform conditions and by standardized process. A classified assistant specializes in the work done in this laboratory. Dr. Saunders had, at the start, only his brain, his hands, his teeth, tongue and palate. So he set to work chewing, chewing, as a means of judging the gluten content and quality and the flour color of the numerous hybrid products grown out at Ottawa. Each head was studied separately and each line was kept separate. Most were finally rejected but among the more promising ones were some obtained from the cross of Red Fife and Hard Red Calcutta. There is every reason to believe that the lucky cross had been made at Assiniboia. It does not matter. What does matter is that the variety produced by one of these heads not only possessed the high milling quality of both its parents but with this combined an extraordinary category of desirable field characteristics—good yield, stiff straw of medium length, comparative disease resistance, absence of any but a mildew-resistant awn, freedom from shattering and the great desideratum, early maturity. In the two last-mentioned respects it quite excelled Red Fife, proving a full week earlier and often more. It made good in tests at Western Experimental Farms and was named Marquis. Just as Red Fife had "made" Manitoba as a wheat exporting Province, so the one week earlier maturity of Marquis rendered a large part of Saskatchewan and Alberta safe for commercial wheat production.

Marquis Wins World Fame

Only in South Central—then considered North—Saskatchewan, a small little Emmanuel of sailor stock, who had proved a shade too short to join the navy, had been passing away with wheat selection. Into Seager Wheeler's hands came one of the earlier lots of the new Marquis wheat. He proposed this and sent a bushel to the New York Land Show in competition for a thousand-dollar gold prize. It was won by the C.P.R. He won the prize. Like a new star in the firmament Marquis sprang into world prominence, commanding instant at-

Co-operation Eases Situation

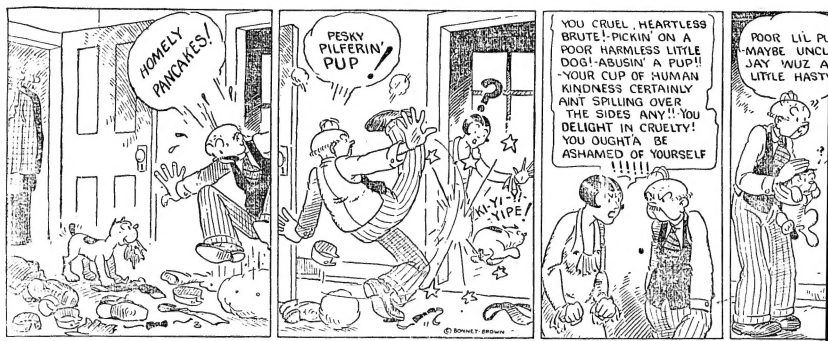

How the Canadian Pacific Railway Company as a large property owner allowed its tenants to catch up on their arrears of rent and also earn some much needed cash is told by J. F. Hendry, Toronto, real estate agent there for the Company. "The Canadian Pacific," said Mr. Hendry, "is owner of eighty six dwelling houses on Marlborough Avenue paralleling the tracks near North Toronto station. Many of tenants were in arrears on their rents despite

every possible effort on their part to make ends meet. The majority, too, were tenants of long standing. We had a mutual get-together and decided that the unemployed tenants would paint all the eighty six houses under the supervision of one of their own number as foreman. The Company supplied all the material, insured the men under the Workmen's Compensation Act, and the work was started. The results are most gratifying for all con-

cerned. The unemployed tenants have seen their arrears of rent gradually erased from the ledger, and the property has been made spick and span at a reasonable cost because there was no idling on the job and everyone worked their hardest. In fact the scheme went along so smoothly that it was decided that all the labour would not be credited on the rent ledger but that each man would draw a percentage in cash to help keep his family and himself going.

The Romance of Wheat

(By W. D. ALBRIGHT, in "Canadian Comment")

A rather tall, spare, fair man of clerical mien sat in a high-ceilinged office chewing gum. He might have been a professor, a choir leader or even a minister. He did not resemble a tiller of the soil, yet he put a means of living into the hands of many thousands of farmers, contributed immensely to Canada's material wealth and rolled back the cereal map many miles towards the west and north. The gum he chewed was the gluten of spring-wheat kernels. One let attracted particular attention by the size and toughness of the pellet of gum derived. That was how Dr. Charles E. Saunders discovered the milling quality of what was afterwards known as Marquis wheat.

Years before, his father, the late Dr. William Saunders, a Devonshire-born pharmacist and horticulturist, who was called in 1886 from London, Ontario, to become the first director of the Dominion system of Experimental Farms, had instituted a world-sourcing and cross-breeding program in the hope of finding or producing a high-quality wheat early enough to escape autumn frosts on the Western prairies. From the steppes of Russia, the mountains of India, wherever the quest seemed worth while, he had gathered likely material. This was tried out but always found wanting in one respect or another. Ladoga was obtained north of Leningrad, Russia (Latitude 60 degrees North, the parallel projecting along the northern boundary of our four Western provinces). Ladoga was early and a good yielder in Northern climates but its flour was inclined to be yellow and the milling quality deficient. Hard Red Calcutta was very early and a fair miller but fell short in yield.

Red Fife—Father of Them All
Back about 1842, long before the Saunders began manipulating wheat, an Ontario farmer, David Fife, had planted a sample of wheat received from a friend in Glasgow, who had obtained it from a cargo at the Port of Danzig, Germany (now Poland). It proved to be winter wheat, but mixed with it was a kernel of spring wheat which grew and matured. Mr. Fife carefully saved the heads and increased them. They became known in Canada as the Red Fife, which made Manitoba famous, but which proved too late to ripen safely when the wheat belt was pushed further west and north.

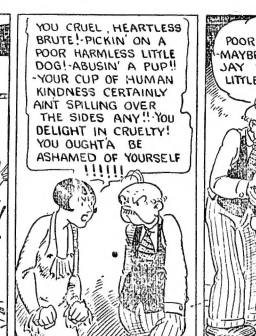

An old Scottish fur trader informed me that when he came through Winnipeg in 1882, friends there told him it was no use trying to raise wheat west of Portage la Prairie, for beyond that point the ground never thawed out! A slight misimpression regarding the ground frost, but loosely suggestive of the problem confronting the cereal breeder of the period. "Send us an earlier wheat," was the stentorian plea of the late Angus Mackay, Superintendent of the Indian Head Experimental Farm.

The Crossing Continues
Dr. Wm. Saunders crossed Ladoga with both Red Fife and White Fife, producing by the first cross Preston

THE FAMILY NEXT DOOR

tein, ground into flour and baked into bread, all under uniform conditions and by standardized processes. A classified assistant specializes in the work done in this laboratory. Dr. Saunders had, at the start, only his brain, his hands, his teeth, tongue and palate. So he set to work chewing, chewing, as a means of judging the gluten content and quality and the flour color of the numerous hybrid products grown out at Ottawa. Each head was studied separately and each line was kept separate. Most were finally rejected but among the more promising ones were some obtained from the cross of Red Fife and Hard Red Calcutta. There is every reason to believe that the lucky cross had been made at Assagiz. It does not matter. What does matter is that the variety produced by one of these heads not only possessed the high milling quality of both its parents but with this combined an extraordinary category of desirable head characteristics: good yield, stiff straw of medium length, comparative disease resistance, absence of any but a mid-ventral awn, freedom from shattering and the great desideratum, early maturity. In the two last-mentioned respects it quite excelled Red Fife, proving a full week earlier and often more. It made good in tests at Western Experimental Farms and was named Marquis. Just as Red Fife had "made" Manitoba as a wheat exporting Province, so the one wheat earlier maturity of Marquis rendered a large part of Saskatchewan and Alberta safe for commercial wheat production.

Marquis Wins World Fame

Out in South Central — then considered North — Saskatchewan, a small little Englishman of sailor type, who had proved, a shade too short to join the navy, had been passing away with wheat selection. Into Seager Wheeler's hands came one of the earlier lots of the new Marquis wheat. He propagated this and sent a bushel to the New York Land Show in competition for a thousand-dollar gold prize. He won the prize. Like a new star in the firmament Marquis sprang into world prominence, commanding instant attention throughout the Canadian West. A pharmacist had been responsible for the breeding of the new wheat. A son had made the cross, another son had selected it and brought it out. Dr. Mackay and other experimentalists of the federal system had proved it in the West but the sensational win of an obscure sailor-bred exhibitor on the Northern fringe of the Saskatchewan wheat belt projected it into the limelight. Marquis has long since almost

Co-operation Eases Situation

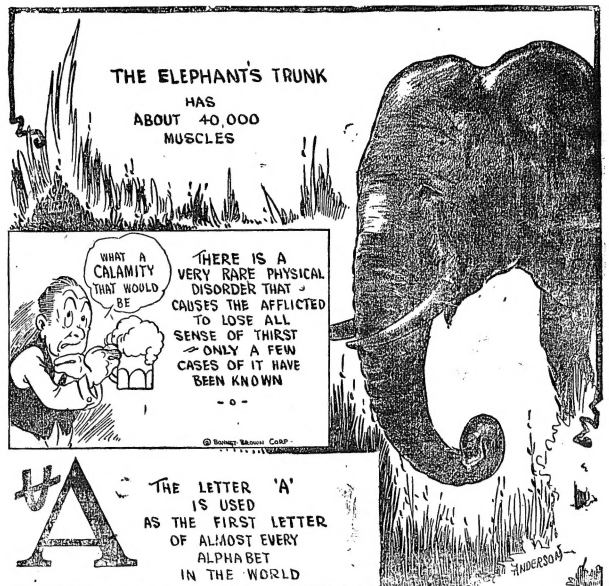

How the Canadian Pacific Railway Company as a large property owner allowed its tenants to catch up on their arrears of rent and also earn some much needed cash is told by J. F. Hendry, Toronto, real estate agent there for the Company. "The Canadian Pacific," said Mr. Hendry, "is owner of eighty-six dwelling houses on Marlborough Avenue paralleling the tracks near North Toronto station. Many of tenants were in arrears on their rents despite every possible effort on their part to make ends meet. The majority, too, were tenants of long standing. We had a mutual get-together and decided that the unemployed tenants would paint all the eighty-six houses under the supervision of one of their own number as foreman. The Company supplied all the material, including the men under the Workmen's Compensation Act, and the work was started. The results are most gratifying for all concerned. The unemployed tenants have seen their arrears of rent gradually erased from the ledger, and the property has been made spick and span at a reasonable cost because there was no idling on the job and everyone worked their hardest. In fact the scheme went along so smoothly that it was decided that all the labour would not be credited on the rent ledger but that each man would draw a percentage in cash to help keep his family and himself going

ductive white Australian wheat obtained from Indian Head. Next year, in his plot of Bobs, Wheeler discovered a head of red kernels. Nature had done the crossing this time, employing only her handmaiden, the wind. Wheeler propagated this and found it to contain most of the good qualities of Marquis besides, being rather a high yielder and maturing a few days earlier. He gave it to the minds of that a wag on one occasion, hearing a discourse on our Red Bobs plot, remarked that it was the first time he ever knew "that Lord Roberts would allow anyone to call him 'Red'."

The male parent of Red Bobs wheat is not known, but it is confidently believed to be Marquis. (Continued on Page 3)

O D D — but True!

Constipation and Headaches Suffered For Two Years

Mr. E. K. Devlin, Winnipeg, Man., writes—"I feel it my duty to let you know of the help I received after having taken two vials of Milburn's Laxa-Liver Pills. For two years I had suffered dreadfully from constipation and headaches, and was advised to try your treatment. I strongly advise all sufferers to use Laxa-Liver Pills and feel well again."

For sale at all drug and general stores; put up only by The T. Milburn Co. Limited, Toronto, Ont.

completely displaced Red Fife. In 1932 several hundred million bushels were produced in Canada. It has made extensive inroads into the hard red spring wheat belt of the neighboring Republic. It has travelled far and wide. It has been our most popular cereal emigrant.

A Sailor Breeds a Wheat.
Pettering away with his plots Wheeler was discovered one day by L. H. Newman, then Secretary of the Canadian Seed Growers' Association which the late Dr. Robertson had been the prime mover in founding. Mr. Newman was impressed with Wheeler's zeal and offered him constructive suggestions, gratefully received. Alongside plots of Marquis and Preston Wheeler one year had a plot of Bobs, a pro-

Alberta News Letter

Classed by Publicity Commissioner,
Government Buildings, Edmonton,
Saturday, October 28th.

Relief in Southern Alberta
Machinery of the provincial department of agriculture under which food relief is being handled in Southern Alberta this year was called into action last week during the severe snow storm which visited the south, and caught many live stock raisers unprepared. Within 24 hours in some cases, railway cars were ready for the shipment of stock out of southern districts to feeding quarters farther north. Up to the present week, some 65 carloads of stock have been moved to winter feeding quarters from those districts where feed is short. In addition to this more than 200 carloads of live stock feed have been shipped in by the provincial department to areas which suffered drought conditions. The movement of families from the dry areas has been proceeding, and since the movement commenced in the summer 369 certificates have been issued for as many families, who have found new locations in central and northern Alberta.

Oil Production

Alberta's total oil production for the month of September was \$6,352 barrels, of which \$2,049 was Turner Valley Naphta.

Winter Highway Program

Last winter the provincial public works department increased its winter road clearing program to include 125 miles of main highway, which meant that this much mileage was kept open throughout the winter. This is a greater mileage than in any other province save Ontario. This coming winter, the department plans to keep the same mileage open, with possibly a small extension to the program.

Edmonton's First Passenger Train
Recently Calgary celebrated the arrival of its first passenger train, September 28, 1883. During the past week, Edmonton celebrated the arrival of its first passenger train in that city, October 21, 1902. This was over the short valley between Strathcona and Edmonton. The arrival of the first train over the C.P.R. main line did not arrive till November 30, 1905.

New Mental Hospital

Alterations to the old school of agriculture buildings at Claresholm to fit them for occupancy as a mental hospital for certain patients from Ponoka, have been completed, and the institution is now being occupied. With Dr. W. L. Valens formerly of Oliver Institute, in charge. The patients to be removed to the new institution will be women, and the Claresholm Institute will serve as an extension to Ponoka. Alberta now has a mental hospital, population about 2,000, with 400 patients at Oliver, 200 at Red Deer, and 1,300 at Ponoka, including those to be removed to Claresholm.

The Romance of Wheat

(Continued from Page 2)

Ited tells, Marquis quality again and back of that old Red Fire! An indistinguishable sister cross or else a selection of Wheeler's material was brought by G. H. Cutler from Saskatchewan to the University of Alberta and ultimately christened Red Bole 222. It is an excellent, productive, medium-grained wheat which fills a place in our production program, though a little subject to plehald (white blotches on the kernel) to shattering and to certain fungus diseases.

A distinct, tall, stiff-strawed commanding type of wheat plant, discovered by Wheeler as a "sport" or else as a natural hybrid occurring among his Marquis wheat was picturesquely named *McIntosh*. It was a good wheat but slightly later than Marquis and has been superseded by Renfrew (a supposedly Marquis-Red Fire derivative) for Southern Alberta districts needing such a variety. After winning five wheat championships at Chicago, Dr. Wheeler is now specializing on Prairie fruit production. At Ottawa the Quest Goes On. Meanwhile, at Ottawa, breeding

and testing work went on not only with wheat but with oats, barley, peas, flax and sunflowers, in all of which crop important achievements were registered. The call was for a yet earlier, good wheat to make production safer in the outer part of the Marquis conquest and to extend it still further up into the parklands of Northern Saskatchewan and Alberta, the plateau of the Athabasca and the Peace, and the higher altitudes of the third prairie steppe.

Drawing the veil on hundreds of natural and artificial hybrids which never won their way to public gaze, and certain others which gained but fitting glimpses of fame we come to Prelude, a third-cross product descended in part from Ladoga. White Fife, Hard Red Calcutta and Gehnu, the latter having been brought from an altitude of 11,000 feet in the Himalayas of East India. The Saunders were scholarly in choice of names for their creation. Prelude was the apt appellation of a precocious variety two weeks earlier than Marquis. It was an excellent hard red wheat but very short-strawed very subject to smut, shattered badly and was too early to be very productive. Earliness is usually secured at the expense of yield.

Somewhat more productive and sufficiently early was relative Ruby produced in 1905 by a cross between Red Fife and Downy Riga. Downy Riga was a selection of Early Riga, produced by crossing Gehnu with Omega, obtained near Archangel. Note that one of these parents came from an altitude of 11,000 feet, the other from one of the most northern wheat-growing regions in Russia. Though a first-class farmer of my acquaintance has had field yield of fifty bushels of Ruby per acre consistently grading No. 1, most growers were dissatisfied with the threshing returns.

Came Garnet, descended through a Russian selection from Ladoga and Red Fife and through a Riga selection from Omega and Gehnu—Leningrad, Galicia, Archangel and the Himalayas—hardy ancestry, indeed, begetting a rare combination of earliness and yielding capacity.

Released to the public in 1926 Garnet won loud acclaim from farmers, who found it a week or ten days earlier than Marquis, therefore often safe in maturity when grades and sometimes yields of the Marquis were knocked by frost. Where both matured Garnet was almost as high a yielder. It was a clear, round wheat

"NOT CONSTIPATED FOR SEVEN WEEKS"

Writes Mrs. Johnson After Using Kellogg's ALL-BRAN

Sufferers from constipation will be interested in this unsolicited letter:

"Your ALL-BRAN surely relieves constipation. I am so glad over the good it has done me that I feel I must write and tell you of it. "For lunch I take a banana, a large one. Six tablespoons of ALL-BRAN in a sauce dish, and dip banana at each bite until all is consumed. I haven't been constipated now for seven weeks."—Mrs. Louise Johnson. (Address furnished upon request.)

Constipation often causes headaches, loss of appetite and energy, sleeplessness. This condition is usually due to lack of "bulk" to exercise the intestines, and vitamin B to further promote regular habits. Kellogg's ALL-BRAN has both, as well as iron for the blood.

The "bulk" in ALL-BRAN is much like that in leafy vegetables. With it in the body, it forms a soft mass. Gently, it clears out the wastes.

Try ALL-BRAN in place of patent medicines—often harmful. Two tablespoons daily will overcome most types of constipation. Chronic cases, with each meal. If not relieved this way, see your doctor.

Use as a cereal, or in cooking. Recipes on the red-and-green package. Sold by all grocers. Made by Kellogg in London, Ontario.

of uniformly deep color, nice to handle in the sheaf and easy to thresh, yet not excessively prone to shattering. Unfortunately, when it came on the market the elevator men would not grade it higher than No. 2 Northern, because, according to the Canada Grain Act No. 1 wheat should be of varieties equal in milling quality to Marquis and tests had shown that Garnet flour lacked slightly in percentage and quality of gluten while exhibiting a creamy tinge. The old Ladoga blood, though diluted, still showed up. The leopard had not changed his spots—they were merely subdued. Canadian millers would have none of it. The Scotch were critical. Many of the English and Continental millers were generally tolerant, thinking they could use it in their blends if ground

hard, so that the characteristic hard, slick kernel could be properly milled. Their customers were not so fastidious about having a snow-white color in their slice of bread. Battle now wages around the question graded. Rightly or wrongly, millers believe that if this is done its price will be heavily discounted and the Northern farmer does not want to be so. The question under he has an equally yielding wheat with satisfactory yield characteristics. In districts subject to rust been favored because, while occasionally escaping an attack through earliness, it is very susceptible to rust injury. It has also at times been found peculiarly vulnerable to wireworm attack, but in spite of this it is popular with farmers in Central and Northern Alberta.

Reward
Though disappointing in its own performance, Prelude was, in 1912, crossed with Marquis, giving Reward, the stiff-strawed, non-shattering, heavy-weighting, high-quality wheat which has been sweeping the boards in bench shows at recent years. During the past seven seasons it has been the times awarded Grand Championship at the International Grain and Hay Show, Chicago, and in the spring-wheat class it is now usually a case of Reward first, the rest nowhere. At the World's Grain Exhibition, in Regina, it swept the boards in the first-pound class and classed with Marquis in the ten-bushel class which it headed. Reward, however, commercially grown is never generally pure, "bitting" considerable diversity of type. It is either prone to smut and other fungus diseases, is difficult to thresh and falls about 10% short of Garnet in yield, besides averaging a couple of days later than Garnet, although usually a week earlier than Marquis. Under prevailing climatic conditions it is possible with Reward to obtain larger average yields in the Peace than with Marquis in the drier zones of the Lower Plains, and the millers like it about as well as Marquis. It is actually a little higher than Marquis in protein content. The average farmer, however, compares it unfavorably with Garnet in yield, double loss, failing at times to secure complete separation.

Work on the selection of the best type of Reward is actively under way the Cereal Division, at Ottawa, making and directing the testing of many selections. Thirteen strains are this year under test on the Stations of the West.

Mr. Herman Treffe has also been making certain selections of Re-

ward, some of which compare quite favorably with the best. One of his earliest, at first furnished by him to be possibly the product of a natural cross, was prematurely heralded to the public by an inquisitive newspaper reporter as "Mystery" wheat. It was undoubtedly one of many variant types of Reward and not dissimilar to an Ottawa selection.

Still Seeking

The ideal wheat for the North is yet to be found. It would have the yield, earliness, vigor and soundness of Garnet, the stiff straw and high quality of Marquis or Reward, the health and non-shattering-resistance of Marquis, the erect, perfectly bald head of Red Fife and, if possible, the slightly greater yielding capacity of the latter. Rust-resistance will not matter much in the Peace, where rust is not a present danger, but may be necessary in Northern Saskatchewan.

When such a combination is achieved, wheat production, on at least a mixed-farming scale, may extend from the Athabasca and the Peace through the Slave and Liard valleys to the Mackenzie. A feed grade of wheat was last year raised on riverside plots in the Mackenzie Delta. A still earlier wheat than Garnet or Reward may be desirable for the higher latitudes, though extreme earliness unduly curtails yield by advancing vegetative development into the hot, dry weather frequently recurring in mid-summer. Medium earliness coupled with drought-endurance and frost-hardiness are called for in the Northwest.

A Rust-Resisting Wheat

Speaking of rust reminds us of the Rust-Research Laboratory's quest for a rust-resistant variety of bread wheat which would possess all-around field characteristics along with high milling and baking qualities. Hitherto, large areas have been driven to rust to rely upon the Durum or macaroni wheats, these being as a rule comparatively resistant to rust as well as drought. It is a big task to build a variety combining all desirable traits with no serious drawbacks, but the Rust-Research Laboratory breeders feel confident that they already have measured up to the requirements unless multiplication of rust forms a new point of vulnerability in strains thus far resistant. But the rust-research breeding problem is a story in itself.

Meanwhile, let us note the manifold contributions made by Dr. Wm. Saunders to our present wheat stock. Note that all the spring-wheat varieties occupying any place of prominence in Western Canada are descended from a chance head of spring wheat spotted in his spring-sown wheat field by an oversight, not purposeful farmer in Peterborough County, Ontario, away back in the early forties. Truly, David Rife builded better than he knew!

Visions Vindicated

The technique of crossing wheats is simple for any botanist. The real work comes in choosing the best from the material produced and fixing its type by eliminative selection. That takes time, skill and patience. Good judgment in select-

You be the judge

ing matings increases the probability of success, but with our present knowledge chance plays a large part in the result. Who knows but that Dr. Charles Saunders, alert and thorough worker as he was, may have overlooked something better than Marquis or Reward? Who knows what might have been brought forth by further crossing? The possibilities are infinite. A boundless horizon beckons the genius which has been well said to consist of 98% hard work. The vision of the drugstore's sodalities.

has already been magnificently vindicated. Fresh triumphs await those who follow in his path. The ideal wheat for the North will be found. The Canadian plant-breeder has many more degrees of latitude to conquer. The work must still go on!

Now life insurance to the extent of \$10,763,000 was taken out in Alberta in the first nine months of the year, according to figures of well said to consist of 98% hard work. The vision of the drugstore's sodalities.

Eczema Broke Out On Her Face and Arms

2:30 p.m.—Company meeting and Bible class.

7:30 p.m.—Salvation meeting.

Friday, 8 p.m., Y.P. night.

CHURCH OF THE NAZARENE

George Gaultier, pastor

Sunday morning—10:30, Sunday school.

11:30—Preaching service.

7:30 p.m.—Gospel service.

Tuesday, 8 p.m.—Prayer meeting.

Friday, 8 p.m.—Y.P. service

The Times does commercial printing at right prices.

UNITED CHURCH

Rev. A. R. Schrag, Minister

Mrs. C. C. Condie, Musical Director

Sunday, Nov. 5—

Morning service. The Communion of the Lord's Supper will be observed.

Sunday school at noon. Beginners at 10:30.

On Sunday evening at the United Church, Mr. W. B. Watson, P.A., L.L.B., will address the congregation upon "Life's Handicaps," and he will also sing. Mr. Watson has a wonderful story to tell and is known as the "Modern Miracle," the man who makes life a song and a success, although he has not the use of his arms. He is also a gold medalist in tenor solo singing. Young people will find his story an inspiration indeed.

IMMANUEL CHURCH

Rev. A. M. Trendell

H. Marjorie Robinson, A.T.C.M. Organist

Sunday, Nov. 5—

8 a.m.—Holy Communion.

10 a.m.—Sunday school.

7:30 p.m.—Evening song and sermon.

Vicarage: Adjacent to church.

Phone 238.

ST. ANDREW'S PRESBYTERIAN

Sunday, Nov. 5—

Morning service at 11 o'clock. Communion.

Evening service at 7:30. Subject: "The Enthusiasm of Youth." Young people are especially invited.

The Minister will conduct both services.

ZION LUTHERAN

(Dickson Avenue)

Rev. A. Appelt

Sunday, Nov. 5—

10:30 a.m.—Lutheran service (German).

12 noon—Sunday school and Bible class (English).

There will be no evening service.

The Y.P.S. meeting on Friday night has been dropped as the pastor will be out of town.

Saturday school 9:30 a.m.

Instruction for confirmation will begin on Monday, Nov. 6th, at 4 p.m. at the church. Please notify the pastor.

SWEDISH BAPTIST

East Side Baptist Church

P. M. Meyer, Pastor

Sunday, November 5—

11 a.m.—Sunday school at Wetaskiwin. Crooked Lake, Nashville school and Nashville church.

Nashville church—3 p.m., Gospel service in the Swedish language.

Wetaskiwin: 8 p.m.—Gospel service in the English language.

Monday, Nov. 6—8 p.m., Young People's harvest festival program at Haultain school house.

Wednesday, 8 p.m.—Prayer meeting.

Thursday, Nov. 8th, the Crooked Lake Ladies' Aid will meet at the home of Mr. and Mrs. Eric Larson at 2 p.m.

SCANDINAVIAN PENTECOSTAL

Rev. C. C. Richardson, speaker

Sunday, Nov. 5—

11 a.m.—Sunday school at South Pigeon Lake schoolhouse.

2 p.m.—Gospel service in the English language will be held at W. Jensen in the South Pigeon Lake school house.

SWEDISH MISSION

P. E. Landerdahl, Pastor

Wetaskiwin: Sunday, Nov. 5th, 11 a.m., Sunday school; 8 p.m., English service.

Tuesday, Nov. 7th, 8 p.m., Prayer meeting.

Malmo: Sunday, Nov. 5th—8 p.m., English service.

PENTECOSTAL ASSEMBLY

John L. Wood, Pastor

Beginning Sunday, November 5th, Revival Services will be conducted at the Pentecostal Assembly, Wetaskiwin. Services will be held daily at 7:45 p.m., except Saturday, Sundays at 11 a.m. and 7:30 p.m. Come and hear the good old-time Gospel.

THE SALVATION ARMY

Capt. M. Anderson, Lt. M. Harris

Friday, 8 p.m., Y.P. night.

CHURCH OF THE NAZARENE

George Gaultier, pastor

Sunday morning—10:30, Sunday school.

11:30—Preaching service.

7:30 p.m.—Gospel service.

Tuesday, 8 p.m.—Prayer meeting.

Friday, 8 p.m.—Y.P. service

The Times does commercial printing at right prices.

Town Topics

Mrs. A. B. Lord of Wetaskiwin, is the guest of Mrs. Pallister this week.—Canadian.

The Scandinavian Welfare Society will meet at the home of Mrs. Malmes on Tuesday, Nov. 7th, at 3 p.m.

Tuesday was Halloween and the occasion passed off quietly, there being very little mischief done in the town.

The Teachers' Convention for the Wetaskiwin Inspectorate will be held here on Thursday and Friday of this week.

Rev. Laird of Clive and Rev. A. R. Schrag exchanged pupils on Sunday last, the latter conducting anniversary services.

A Jensen returned a few days ago after spending a month at the coast, visiting at the home of his daughter, Mrs. A. E. Maggs.

Mrs. Shillaber who a few weeks ago on account of the sudden illness of her father, returned home on Friday last. She was accompanied by her father, who is now feeling much better.

Mrs. Joe Anderson and her friend Mrs. Baker, left on Thursday last on a trip to Sacramento, Cal. Mrs. Baker is returning to her home and Mrs. Anderson will spend a few weeks with relatives and friends.

Among those who made purchases at the recent sheep sale at Edmonton are G. Runk & Sons, Ed. Berry and E. Berry of Wetaskiwin and J. W. Mullen of Millet, Percy Deel of Gwynne and A. M. Rodney of Millet.

Frank Gross, who has been in the district for a couple of weeks visiting friends and looking after business interests, expects to leave for his home in Puyallup, Wash., on Thursday of this week. Gus Gross, who accompanied him, will remain here for a few days.

The Western Canada Construction Co. now has several trucks hauling gravel from the cars here and distributing it on the highway between Wetaskiwin and Millet. Farmers who are compelled to use the highway are complaining that the gravel dumped on the sides is spoiling the road for both sleighing and wheeling.

Mrs. Horton and her daughter, Laurier, of Vegreville, who have been visiting at the home of Rev. and Mrs. Schrag, returned home on Sunday. Mrs. Horton driving down to visit them. A. L. who is the editor of the Vegreville Observer, was a very welcome visitor at the Times office, and the two editors, who are among the oldest men in the profession in Alberta, spent a very enjoyable hour fraternizing.

The auction sale of purebred Holstein cattle held by the well-known stockman, A. L. Peterson of Edberg, last week, was not as well attended as had been hoped due to inclement weather conditions. Cows averaged \$75.00 each and bulls brought from \$25.00 to \$25.00, considered to be very fair prices by Mr. Peterson. No fancy prizes were paid excepting for young calves, when as much as \$22.00 was secured. Geo. L. Owen was the auctioneer.

Mrs. Elizabeth Craig arrived here on Thursday night, having spent a wonderful holiday in England. Mrs. Craig spent two weeks visiting her sister, Mrs. Nellie Craig, who is married to the Cold Lake hospital, and went with her sister to Wainwright where Mrs. Craig spent a month's holiday. She was accompanied to Gwynneville, hospital, where she has become a patient. The Cold Lake hospital staff and the W. M. A. as well as the Ladies' Aid, gave a farewell in honor of Mrs. Bullock, who has been their faithful matron for three and a half years, as well as being organist in the United church, leader of the C.G.I.T. and in charge of the Cradle Roll. She was presented with a beautiful oil painting done by Mr. Hill, a resident of Cold Lake. Miss Bullock's Sunday school class presented their teacher the United church at Cold Lake, with a magazine rack done in red work. Mrs. Craig sold her organ to Alta. This fine new church has just been built, and was opened in October with Rev. W. Bell of Cold Lake as minister. Mrs. Craig spent a month at Reston, Man., where she visited her many relatives. Her parents, Mr. and Mrs. Thomas Bullock, with their large family, came to that point in 1883.

Hon. H. H. Stevens, federal minister of trade and commerce, on a visit to Edmonton a few days ago, said that Premier Brown's proposal for the establishment of a national wheat board is not favored at Ottawa.

High School Corner

(Edited by the Principal)

PARENT-TEACHER MEETING

The Wetaskiwin Parent-Teacher Association held their next regular meeting at eight o'clock, Monday evening, Nov. 6th, in the Alexandra school building.

The Principal urges all parents who have nothing of greater importance to do on Monday evening, to come over to the meeting and at least listen in to the discussions on matters of primary and vital importance to all whose interests are so closely connected with our institution and its activities.

Through these monthly meetings it will be possible to effect wholesome aims and ambitions which the staff may entertain for the Wetaskiwin Schools, as well as an intelligent estimation of the policies of the administrators in their efforts to realize these aims.

Without wishing to appear boastful or pedantic, we as a staff feel that we are equipped with the necessary professional training and experience required to conduct the Wetaskiwin Schools efficiently and effectively, and we can see no reason why our schools should not be as good as or better than those of any other city in the province. But there is one very essential factor in the successful and ideal operation of any public and high school, and that factor is a parent who is happy about the policies of the administrators and satisfied with the general atmosphere of the school and elated over the results of the year's work which has cost him much money and many anxious thoughts. And how, if you please, can a parent be happy about these things unless he takes the pains to view them from a professional perspective as well as from that of one who perhaps has never looked into school problems from the professional angle.

Mr. W. H. Odell is chairman of the Association, and the Principal will work with him to make these meetings entertaining, instructive and inspirational. This week the chairman and principals of both the high and public schools will briefly address the parents, and a representative of the Students' Executive Council will briefly outline the aims and work of this body, and a representative of Grade IX, will give a talk on some phase of the work in Science in that grade. Some of the parents will be called upon to give their impressions, pro and con, of the high school Halloween party, and all parents will be encouraged to discuss openly at all times any matters of interest to this Association.

We enlist the moral support and active co-operation of all parents.

The High School Halloween Party, held in the Elks' hall on Tuesday evening was a most enjoyable affair. One hundred and fifty students and fifty guests were entertained with a varied program of dances, songs, instrumental numbers and refreshments. During the supper hour, the Principal and the Officers of the Executive Council of Students gave one minute speeches in which they referred to the wholesome and happy co-operation, and growing school spirit which made the party possible and so enjoyable. The atmosphere of the party was a happy and confidential one, and the general impression which the student body made upon the guests was a very favorable one indeed. Doubtless, the Principal and his staff, the student body, and the parents will look forward with happy anticipations to the next High School function.

Four years of suffering under depression inevitably make citizens impatient of the slow pace of normal recovery. There has been a large increase in radical expression and thinking in the last year or so, and governments are very conscious of it. Public impatience is perhaps the chief danger to our future well-being at this time. After all, public opinion makes and unmakes governments, even dictatorships, and governments are prone to cater to it. Mr. Roosevelt's vigor made him the idol of his people in April and May last; now he does not stand so high, as his policies are in process of being tested and the results are uncertain. Also it is coming clear that the penalties of failure may be great. Slow-moving Canada is unquestionably in a safer position today than the United States as well as being better off materially.—Toronto Saturday Night.

It proved a costly truckload of wheat to two young men of the district east of here who pleaded guilty in the local police court before Magistrate Young on Friday to the theft of the wheat from Clifford Johnson. The ringleader of the two was fined \$150 or three months in jail and the other \$50 or one month. The theft took place the day before, the wheat being sold at New Sarepta.—Leduc Representative.

Much To Be Gained

There is much to be gained through the building up by Alberta Grain Growers of a strong and virile grower-controlled grain handling system. Why build for others?

Deliver your grain to

ALBERTA POOL ELEVATORS

RELIEF MEASURES

The provincial government submitted to the dominion a proposal for the completion of the Edmonton-Jasper highway, offering to supply equipment for federal gravel camps along the highway this winter.—Six camps on the trans-Canada highway at Exshaw were taken over by the federal department of defence and will be operated by it. Some 200 single user "drifters" were moved out of Edmonton to federal work camps at Kootenay, B.C.—A modified \$53,000 program of street grading and graveling was begun in Edmonton, giving employment to some 33 men.

CANADA SAFER

Four years of suffering under depression inevitably make citizens impatient of the slow pace of normal recovery. There has been a large increase in radical expression and thinking in the last year or so, and governments are very conscious of it. Public impatience is perhaps the chief danger to our future well-being at this time. After all, public opinion makes and unmakes governments, even dictatorships, and governments are prone to cater to it. Mr. Roosevelt's vigor made him the idol of his people in April and May last; now he does not stand so high, as his policies are in process of being tested and the results are uncertain. Also it is coming clear that the penalties of failure may be great. Slow-moving Canada is unquestionably in a safer position today than the United States as well as being better off materially.—Toronto Saturday Night.

LONG NAMES

Montreal, Que., October 30.—When it comes to naming towns, Wales, in Great Britain, it would seem, has all other countries beaten to a standstill. In North Wales, states the National Bureau of the Canadian National Railways, there is a railway station serving a town called Llunfairpwllgwydolgyroeg. Translated the name means "Church of St. Mary, in a hollow of white hazel, near to a rapid whirlpool, and to the St. Tysilio's Church, near a red cave." Glancing over lengthy names in Canada, the record seems to be held by Ashmun-mouchman, in the Lake St. John country of Quebec.

Churchill, Man., October 30.—Prairie wheat to open the 1934 shipping season is rolling into this northern Manitoba seaport. Trailloads of grain are enroute daily and a total of 2,400,000 bushels will be moved to Churchill for winter storage within the next thirty days.

It is said that there are over 22,000 unemployed clerks in the United States—about a third of the whole. But that is not all, about one half of those having charges are on practically starvation wages.

What Canada Thinks of the U.S.

What a citizen of the United States thinks we think of his country is very succinctly stated by Dr. Frederick L. Fagley, associate secretary of the general council of Congregational and Christian churches.

Dr. Fagley, in a recent report, gave the following list of "20 reasons for which the Canadian thanks God he is not an American," (although there are some Canadians who will object to this possessive use of the word American):

1. The Canadian does not like our runaway criminals seeking refuge in his country.
2. He compares the lawlessness in our cities with the orderliness in his own.
3. He does not like our featuring crime in our newspapers though his papers do carry a good deal of the lurid details.
4. He does not like our system of justice nor the procedure of our courts; he thinks the English system of jurisprudence the best in the world.
5. He thinks we have been hypocritical about liquor control.
6. He does not like our position on war debts.
7. He does not understand why we refused to join the League of Nations of which Canada is a member.
8. He thinks we are trying "to put something over" in the Pan-American Union and he will not join it.
9. He does not like our coffee and wonders why we do not like his tea.
10. He is growing fearful of our vast interests in Canada, though formerly he welcomed American capital and to some extent does now; but he hears agitators at home warning him that we always follow our trade with our guns—and "see what we did in Nicaragua."
11. He does not like our attitude toward the use of the water of the St. Lawrence River.
12. He does not like the idea of Chicago using so much water from the Great Lakes, thus lowering the level and making useless the docks and wharves of Canadian ports.

Was So Short of Breath Could Not Lie Down to Sleep

Mrs. P. J. Chernoff, Shoreacres, B.C., writes:—"I had been so troubled with shortness of breath I could not lie down to sleep. I could not do any hard work, or climb the stairs, and had such nervous and smothering feelings I became very weak. I tried all kinds of medicine, but got no relief until I had taken three boxes of Milburn's H. & N. Pills, and since then I have felt better in every way." For sale at all drug and general stores; put up only by The T. Milburn Co., Limited, Toronto, Ont.

FOR SHIPPERS OF DAIRY COWS

In the export of Canadian dairy cows to the United Kingdom, shippers and importers will benefit financially, says W. A. Wilson, Animal Products Trade Commissioner for Canada in Great Britain. If a separate statement be attached to the shipping documents on which is listed the ear-tag number of each cow and the approximate freshening date. Buyers want cows that will freshen shortly after arrival. Furthermore, in the total absence of this information, bargaining on all sales, except in evident cases, proceeds on the assumption that the freshening date is speculative and will be delayed. The dairymen who are supplying the liquid milk trade, and who must have a nearly level supply, emphasize this point particularly. They may even decline to purchase cows whose breeding and conformation are suitable, just because the freshening time is doubtful. It is very desirable, therefore, that shippers, even at some inconvenience, take the necessary precautions to remove that doubt, and thus give the importers the advantage of bargaining with certainty.

Here and There

The Royal Scot, famous British flyer, will soon again be in Montreal prior to dismantling and shipping from that city to Great Britain. This great train has been travelling through the West of Canada subsequently to being one of the major exhibits at the Chicago World Fair.

The vehicle of the future will be an automobile that can also take off into the air, or an airplane that can land and travel along the highways, a speaker addressing the Society of Automobile Engineers' audience at the Royal York, Toronto, recently.

Canadian scenery dwarfs that of Scotland, a lake in the Gatinou Valley was more magnificent than Loch Lomond while Lake Louise in the Rockies was to him almost a celestial vision, according to Lord Macmillan, chairman of the Royal Commission on Banking, expressed his joy to visiting on the Empress of Britain for England.

Informal discussion on closer working relations between the Canadian railways and aviation companies of the Dominion are in progress. With Canada lying on the most direct route between Europe and the Orient, this country is in a unique position to take care of a large portion of the traffic now moving between Europe and the East.

Constituting what is regarded as the finest collection of mounted square-tailed speckled trout ever assembled from the same locality in a single season, seventeen fine specimens of this variety and one rainbow trout were entered in the Simpson River Camp Guides mounted trout contest recently judged and prizes awarded by the Tourist Department of the Canadian Pacific Railway.

A Christmas and New Year's cruise to the Caribbean and a round the world cruise later by the same ship, the Empress of Britain; a Mediterranean cruise by the Empress of Australia; two cruises of Bedford cruises to the West Indies and twenty trans-Atlantic sailings from Canadian ports are scheduled for Canadian Pacific liners for this winter season.

The second reunion of all pilots and observers who had commissions and wings before November 11, 1918, will be held at the Royal York Hotel, Toronto, on Armistice Day. First reunion was held April, 1932, when 325 wartime flyers from a number of countries attended. The second reunion is expected to be one of the most brilliant functions ever held at the palatial Canadian Pacific hotel.

Wide-spread interest in John Murray Gibson's book, "The Music of Melody," is again illustrated by the gramophone contest conducted by the "Gramophone" and "Everyman," London, publications. Empire-wide response to this contest resulted in an Overseas prize being awarded to Miss Gladys Kippen of Toronto, for a poem, written to the music of the Sonata for Violin.

GROWING DEAF WITH HEAD NOISES? TRY THIS

If you are growing hard of hearing and fear Catarrhal Deafness or if you have roaring, rumbling, hissing noises in your ears go to your druggist and get 1 ounce of Parmit (double strength) and add to it ¼ pint of hot water and a little granulated sugar. Take 1 tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone who is threatened with Catarrhal Deafness or who has head noises should give this prescription a trial.

Smilin' Charlie Says-

These fellers who're sayin' they won't fight if we have another war ain't fuggin' on the attitude th' girls might take to ward the men in uniform - - -

LIFE

To the preacher life's a sermon,
To the joker life's a jest;
To the miser life is money,
To the loafer life is rest.
To the lawyer life is trial,
To the poet life's a song;
To the doctor life's a patient,
Who needs treatment right along.
To the soldier life's a battle,
To the teacher life's a school;
Life's a great thing to the thinker
But a failure to the fool.
Life is just a long vacation
To the man who loves his work.
But it's constant dodging duty
To the fellow who's a shirk.
To the faithful, earnest worker
Life's a story, ever new.
Life is what we try to make it,
Brother, what is life to you?

WHY WE PAY TAXES

We howl about taxes. And well we may. Much tax money is spent wastefully. But what about the good the taxes do? We never mentioned that. All that we do is yell and shriek, bark and complain.

But the tax is the difference between the tribesman with his club and the high school principal. It is the difference between the code of the jungle and the civil and moral law.

In the primitive days a woman or an ox was the property of the man, and when the man wanted another club and took possession. The tax is the difference between the rule of man's wife or his ox he went with his force and the polling booth.

The tax we howl at is the difference between government by the beak and talons and bloody maw as compared with government by constitution, freemen and the ballot. The tax is our shelter, our guardian against crime, the crime and criminals that would overrun us and rule us and be our masters but for the defense taxes provide.

The tax educates our children. It takes them in childhood, follows them into the higher institutions and high school, goes side by side with them out into society, schooled and trained and equipped to think and reason and form intelligent conclusions.—Ex.

Get Rid of That Cough or Cold

For Only a Few Cents
In these days when pennies count, it's great to have a remedy like BUCKLEY'S MIXTURE, that banishes coughs and colds so quickly that the cost is only a few cents.
One dose of BUCKLEY'S MIXTURE gives unmistakable relief. Two doses very often knock out a cough or cold for good. No matter how long your cough or cold has hung on, Buckley's will stop it—quick! That's why people say, "It cuts like a flint—single sip proves it." Beware of substitutes. Buckley's is sold everywhere.

For Pain Relief In Minutes

Demand And Get

ASPIRIN

TRADE MARK REG.

Because of a unique process in manufacture, Aspirin Tablets are made to disintegrate—or dissolve—INSTANTLY you take them. Thus they start to work instantly. Start "taking hold" of even a severe headache; neuralgia, neuritis or rheumatic pain a few minutes after taking.

And they provide SAFE relief—for ASPIRIN does not harm the heart. When you buy, though, be

on your guard against substitutes. To be sure to get ASPIRIN's quick relief, be sure the name Bayer in the form of a cross is on every tablet of Aspirin. MADE IN CANADA.

ASPIRIN DOES NOT HARM THE HEART

A guest hurried up to the hotel clerk's counter. He had just ten minutes to pay his bill, reach the station and board the train. "Hang it," he exclaimed, "I've forgotten something. Here, boy, run up to my room, No. 427, and see if I left my shaving kit. You'll do it if you're smart. Hurry! I've only five minutes now." The boy hurried. In four minutes he returned empty-handed and out of breath. "Yes, sir," he panted, "You left it."

LIBRARY NOTES

By the fireside with books from the Wetaskiwin library you are read to know, read to think, read for adventure. Long evenings spent on one glorious adventure, through this country and that, meeting people of modern days and past ages, coming in contact with romance, intrigue, historic battles, politics, adventure, books are friends that bring the world to you! Here they are in your Public Library.

"Enchanted Sands," by D. J. Hall, a New Mexican pilgrimage. Strange things are told in this tale of a year among the Indians of the Southwest. Among those ageless people the skin of civilization seemed very thin, and the author discovered the enchantment and virtue of primitive life. His story will be appreciated most fully by those who want to escape for a time from the round of everyday life.

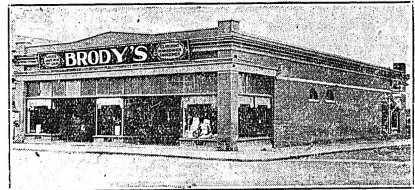

"Over the River," John Galsworthy's last novel concludes happily the story of Dinny Cherrell and her sister Clare. There is a sensational divorce case. This book fittingly closes the career of a great modern novelist.

"Life Begins at Forty," by Walter B. Pitkin. The author shows that men and women at forty are just on the threshold of lives of fuller possibilities, of opportunities to capitalize experience; he describes methods of enriching one's own life after forty. He explains how, in the world of science, technology, finance, the

greater skill of the experienced outweighs the energy of the younger person.

"In the Midst of the Years," by Joan Sutherland. Adrian La Salle resigns an important position in Egypt and comes to England to enter political life. His career is chiefly occupied in fighting the influence of the press in its attempt to direct the politics of the nation.

The books of the Mind Alocve and the latest books have to be spoken for as they are in great demand.

Town Topics

One of the finest cottages at Pigeon Lake, owned by Mr. Falkenberg of Edmonton, and located at Crystal Springs, was completely destroyed by fire a few evenings ago. The cause of the fire is not known, but a party of hunters occupied the premises a few hours before the flames broke out.

Several inches of snow have fallen in this community during the past few days, and it is reported that the snowfall in October this year, is the heaviest on record. The snowfall is general throughout Western Canada and it would appear that winter has set in, but some of the old-timers contend that this snow will disappear shortly.

The carnival which was held during the past week was a very gratifying success, considering the inclemency of the weather. Large crowds were present each night and the different games were well patronized. As a result of their efforts it is expected that the Wetaskiwin Elk's Lodge, under whose auspices the affair was conducted, will add a nice sum to their treasury and which will be expended for Christmas cheer. E. Lentz held the ticket which won the Chesterfield suite.

Two local option plebiscites during the week, at Arrowwood and Bentley, gave dry majorities.
